Model #: VP-24A

Cordless VoIP Phone (2.4 GHz)

Highlights

- For PC-to-PC and PC-to-Phone calling
- Cordless convenience
- Rechargable

Description

While most VoIP phones require you to be connected to your PC via a USB cable our Cordless VoIP phone uses a wireless signal that allows you to roam your house or office while using Skype. You may use the phone for both PC-to-PC and PC-to-Phone calling.

System Requirements

Windows:

- An available USB port
- Windows 2000 or XP
- Internet connection
- Skype account

Macintosh:

- An available USB port
- Mac OS X (10.3 or higher)
- Internet connection
- Skype account

Package Includes

- Cordless receiver (for VP-24A)
- Cordless VoIP Phone (part number VP-24A)
- 3 AAA rechargeable batteries (for phone)
- USB cable (for recharging phone)
- CD with driver software and user guide
- Printed Quick Start Guide

Features

- Cordless receiver plugs into the USB port on a PC or Mac
- Phone communicates with the computer over a 2.4 Ghz radio signal that works through walls and furniture
- Calls are made over the PC's internet connection using Skype
- Open and close Skype with a single button on the phone

- The LCD display on the phone shows you who is online, as well as Skype status, battery level, and signal quality.
